

## **STATEMENT OF THE PROBLEM**

This study wants to explore the stories behind the success of the financially-challenged students

Specifically, this study wants to answer the following question:

1. What are the struggles and the challenges faced by students with financial problem?
2. What are the significant experiences of financially-challenged students?
3. How did the students overcome the problem: personal emotional social and financial?

## CHAPTER 1

### BACKGROUND OF THE STUDY

#### INTRODUCTION

Money is important to our lives, there are students in highschool level who cannot go to school because of some reasons such as financial problem or because their parents cannot support the education of their children. But other students can go to school even they out or rage in money, this is helpful to students because of their needs in everyday life. The student is have struggles because of money everyday. The lost of job of his/her parents is one of the struggles in education in lack of money. But even through they are lack of money, they overcome their education and there are effects on education the effects of each students is they can't pass their projects that they needed to passed and this affects also of what they thinking for money. All of experiences of students is things can escape they money positively, there are studiests who can even though they look of money.

However despite of financial ditemma, there are students who are determined to be a class achiever and will do their best to cope up not only with the subjects but with everything to do related to money.

This study want to explore the stories behind the success of a financially-challenged.
