Education, it is a simple word but contains heavy responsibilities once you enter its world. It serves as a key for us to have a better life someday, but not everyone are willing to sacrifice for education.

This phenomenological study was conducted to describe the experience of those students who lived far away from their home to continue their studies.

The main source of informations were from the interviews that our participants have stated. Litchman 3C'S of qualitative analysis was done to analyze the study.

The themes are according and come from the experiences our participants have described.
